

## Job advertisement

### Application Technologist (m/f/d) Beverages

#### Be part of our success!

We are an owner-managed, internationally successful and steadily growing company (since 1829 in Leipzig) in the field of flavors and fragrances, plant extracts and aroma chemicals. Innovative product creations for leading manufacturers in the food and beverage industry as well as in the household care and cosmetics sector characterize our expertise.

#### Your Tasks:

- Creation/development and calculation of application recipes and application concepts/RTE food products
- Organisation, implementation and care of internal and external projects
- Technical support for domestic customers and abroad
- Development of raw materials and emulsions for end products for the food retailer
- Expansion of own flavour know-how with regard to regional preferences and technical requirements

#### Your Profile:

- Completed studies, master craftsman or technician training in the food technology sector or similar
- Several years of professional experience in food/raw material production B2B or B2C
- Several years of experience in the creation of food recipes
- Strong knowledge of raw materials
- Basic knowledge of Microsoft Office and ideally Microsoft Dynamics AX available
- Very good written and spoken English required

If your strengths include the ability to work in a team, commitment and dedication and if you are characterized by a quality-conscious way of working, then we look forward to receiving your application! Please share your salary expectations and earliest possible starting date.
